# welcome to the green house, the greenest hotel in the uk.

---

The Green House is a beautiful boutique hotel that lives and breathes sustainability. The hotel is in the heart of Bournemouth, a short walk from the beach, the centre and the Bournemouth International Centre.

On the surface the 32 bedroom hotel may appear similar to many other designer boutique style properties, with contemporary décor, tactile fabrics and quality natural materials complementing the light, airy period rooms.

Dig deeper though and you will discover that considerable thought and extensive research has gone into every aspect, ensuring that the hotel minimises its impact on the environment at every turn. Please visit our website for further details.

Relax in the knowledge that we will spoil you without spoiling anything else.

In keeping with our eco principles and sustainable roots, we're passionate about bringing you truly local flavours, from daily deliveries of organic farm-assured produce and artisan specialities to some of the UK's finest fish and shellfish, fresh from the trawlers.

At Arbor, we believe that good food and good company are two of life's greatest, yet simplest pleasures... and we aim to keep it that way.
